| Git & GitHub | HTML | CSS |

📁 PROJECTS

Learning Gateway ↗

Python(Django web framework and Sqlite3)

- The purpose of Learning Gateway project is to create a portal that would serve as a hub to all vital resources that users need on a day to day basis.
- This portal provides a single place to students from where they can do all the study related activities .
- System provide easy and smooth interface to the user.

Book Store ↗

Python(Django web framework and sqlite3)

- The main objective of the project is to create an online book store that allows users to search and purchase a book online based on title, author and subject. The user can order their books online .Using this Website the user can purchase a book online instead of going out to a book store and wasting time.
